

CCSO SPONSORSHIP PACKAGE

2026-27 ACADEMIC YEAR

WHO IS CCSO?

The Competitive Cyber Security Organization at Penn State

We are **MENTORS**: CCSO club members gain hands-on lessons on various cybersecurity, physical security, business, and computer science topics. Each meeting features hands on challenges to help students practice their skills outside of the classroom. Some examples include internal competitions, lockpicking workshops, and resume building events.

We are **COMPETITORS**: Our members compete in national competitions representing Penn State. We aim to provide our members with real world experience through competition, consistently placing in the top 4 of national cybersecurity competitions such as the Department of Energy 's CyberForce, the Collegiate Penetration Competition, and the Mid-Atlantic Collegiate Cyber Defense Competition.

WHY SPONSOR US?

Visibility

Feature your company on CCSO's website and social media to strengthen your brand presence at Penn State.

Engagement

Join our cybersecurity career fair and lead hands-on workshops to connect with students.

Recruitment

Share job openings, promote your opportunities, and access member resumes..

Impact

Your support helps students gain real-world experience through competitions, training, and access to professional tools.
